

## **International College of Prosthodontists**

**19<sup>th</sup> Biennial Scientific Session - VIRTUAL - September 22 – 25, 2021**

### **Program Speaker – Enrico Agliardi**

#### **Title**

Rehabilitation of Atrophic Jaws with Tilted Implants

#### **Abstract**

In recent years, materials and techniques used in implantology have undergone continuous improvements.

Tilted implants approach has been a revolutionary technique that changed the way of doing implant-supported total rehabilitation. All-on-4, V-II-V, trans-sinus and zygomatic implants have become reliable and predictable procedures supported by a strong scientific evidence. Amongst their advantages higher comfort for the patient, time saving, cost saving and higher esthetic result are only a few.

In addition immediate loading is a great advantage in term of psychological acceptance and functional result. Throughout the lecture attendants will learn how to treat compromised patients, in need of total implant-supported rehabilitation, avoiding demanding and more complex bone grafting procedures, with great benefit for both patient and clinician.

#### **Learning Objectives**

- Learn how to set up a correct diagnostic phase for atrophic patients in need of immediate loading total rehabilitation
- Learn the titled implants surgical protocol to achieve a correct placing and distribution
- Learn how to deliver a functional and esthetic provisional prosthesis and how to convert it in a final rehabilitation with long-term success

#### **Biography**

Prof. Enrico L. Agliardi is Doctor of Medicine and Surgery, Specialist in Maxillofacial Surgery and Orthognatodontics “Università degli Studi” of Milan, associate professor and chair of maxillofacial-surgery and advanced oral rehabilitation and clinical director of dentistry, Clinica Resnati, Vita-Salute San Raffaele University, Milan, Italy.

From December 2009 is chief of Special Rehabilitation Surgery department of San Raffaele Dental Clinic, directed by Prof. Enrico Gherlone. Clinical director of Resnati Clinic, department of dentistry, San Raffaele Hospital, Milan - Italy. Many year-experience in Oral, Orthognathic, Pre-Prosthetic and Pre-Implant Surgery, Advanced Implantology (intraoral and extraoral implants). Supervisor of various National and International Congresses and author and co-author of several National and International Publications and books.
