\* The ICP Main Symposium is taking place  
in Shanghai, China October 14-17, 2023

**ICP 2023**

**August 30 - September 2, 2023**

**International College of Prosthodontists  
London Symposium – Satellite Meeting  
August 30 – September 2, 2023**

**Invited Speaker – Shakeel Shahdad**

**Title**

Prosthodontic Rehabilitation of Challenging Clinical Situations with Implants

**Abstract**

Dental implants have been successfully utilised in rehabilitating partially dentate and edentulous patients with removable and fixed prosthetic solutions. However, replacement of multiple missing teeth due to syndromic and non-syndromic causes with implants in growing children is complex and requires lateral thinking. There are numerous anatomical or patient-related factors which require careful consideration for successful management of their oral disability. Besides, the age of intervention and timing of implant placement remains controversial.

This clinical case series-based presentation will discuss and illustrate the role of early implant placement in tweens and teenagers to achieve successful functional and aesthetic outcomes.

**Learning Objectives**

1. Understand the complexities of patients with severe hypodontia and anodontia
2. Discuss the advantages of early mandibular rehabilitation in physical, functional and psychological well-being of these patients
3. Understand the challenges posed by lack of alveolar development due to congenital absence of teeth

**Biography**

Shakeel Shahdad is a Consultant and Honorary Clinical Professor in Oral Rehabilitation & Implantology at The Royal London Dental Hospital, and Barts & The London School of Medicine and Dentistry. He is the

Clinical Lead for Restorative Dentistry, Lead for postgraduate implant training and Chairman of ITI Scholarship Centre at QMUL.

He is a Fellow of the International Team for Implantology. He is also the Chairman Emeritus for the Advisory Board in Implant Dentistry for the Royal College of Surgeons of Edinburgh and the ITI UK & Ireland Section. In 2017, he was conferred Fellowship of the Faculty of Dental Trainers (FFDTEd) by The Royal College of Surgeons of Edinburgh.

He is a specialist in Restorative Dentistry, Periodontics, Prosthodontics and Endodontics. Apart from the specialist restorative treatment, his areas of particular interest include aesthetic implant dentistry and management of complex restorative cases including functional and aesthetic rehabilitation of patients with congenital absence of teeth and toothwear. Shakeel specializes in treating patients requiring complex and advanced restorative treatment including surgical placement and restoration with dental implants.

He is active in clinical research and has secured various research grants. He is a co-author of a textbook in periodontology and implant dentistry, besides publishing in peer-reviewed journals.

He also runs a multi-specialist referral practice in the West End of London.
